

## Natural Science Loop Safari

The days when we are travelling to National Parks require us to be prepared for remote locations and travel on gravel roads. These parks may be closed if there has been recent rain 5-10 ml. When there are options let the leaders know what your plans are as a safety precaution. Try to travel with another vehicle where possible.

### Be prepared:

- Full tank of fuel.
- Use AGSHV two-way radios.
- Lower tyre pressure.
- Spare tyre and/or tyre repair kit.
- Closed in walking shoes.
- Wide brimmed hat.
- Sunscreen/insect repellent.
- Fly nets.
- Walking poles.
- Sunglasses.
- Plenty of food.
- Plenty of water.
- Layered clothing.
- Binoculars.
- Camera.
- Day pack.
- Snacks.
- Plastic bag for rubbish/toilet paper waste.
- Toilet paper.
- First aid kit.
- Torch.
- Beanies, gloves and warm jacket for early morning and evenings.
